

# PR 15

## External rewinder Compa II 162

The rewinder PR 15 is fixed with the printer and screwed with a direct connection. The regulation by the pendulum provides an even and tight winding.

For the processing of larger print orders it is possible to take up label rolls up to a diameter of 210 mm and rewind the labels independent of the printer.

### Specifications

<b>Label roll</b>		<b>Weight</b>		3.5 kg
max. rewind diameter	210 mm	<b>Connection values</b>		
max. label width	180 mm	nominal voltage	24 VDC	
<b>Label winding</b>	outside/inside	<b>Operating conditions</b>		
<b>Rewind speed</b>	max. 300 mm/s	operating temperature	10–35 °C by air humidity 30–85 % not condensing	
<b>Rotating direction</b>	switchable			
<b>Core diameter</b>	40 mm on cardboard core	storage and transport temperature	–20–50 °C by air humidity 10–85 % not condensing	
	40 mm on winder axis 76 mm on cardboard core by adapter			
<b>Dimensions</b>		<b>Item no.: 92.52.200</b>		
height x width x depth	280 x 320 x 270 mm
